

EXHIBIT A

IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF PENNSYLVANIA

IN RE: BPS DIRECT, LLC and CABELA'S, LLC, WIRETAPPING	MDL NO. 3074 2:23-md-03074-MAK
--	-----------------------------------

DECLARATION OF DOUG CADMUS

Pursuant to 28 U.S.C. § 1746, I, Doug Cadmus, declare as follows:

1. My name is Doug Cadmus. I am employed by Bass Pro Shops, as Senior Manager, E-Commerce. I have held that position since 2021.
2. I am aware of the litigation relating to the use of session replay technology on basspro.com and cabelas.com. I am familiar with the use of that technology on both websites and I have assisted counsel with responding to discovery in this litigation.
3. Quantum Metric has been the session replay vendor providing session replay services for both basspro.com and cabelas.com since 2019.
4. Quantum Metric has provided Bass Pro/Cabela's with JavaScript code that we have placed on basspro.com and cabelas.com through Adobe Tag Manager.
5. When that script runs, it transmits data points regarding a website visit and sends those data points to Quantum Metric. It transmits mouse movements, mouse clicks, URLs of pages and images viewed, and certain keystrokes.
6. With regard to keystrokes and information input into form fields, such information is either transmitted and encrypted (hashed); or blocked (not transmitted at all). In either case, it is never visible to Quantum Metric because encryption occurs before the information reaches Quantum Metric.

7. Information that is transmitted in encrypted form includes personal identifying information input by an individual into the websites – for example, account log-in information. This information is only visible to certain individuals at Bass Pro/Cabela's who have a private decryption key and has never been visible to Quantum Metric.

8. IP addresses are partially encrypted – the third and fourth octets are encrypted when they reach Quantum Metric. IP addresses cannot be hashed on the client's side because of its network transport function. IP address is the only encrypted identifier that can be decrypted by Quantum Metric, with a private decryption key and an appropriate justification.

9. Session replay is configured on basspro.com and cabelas.com to block certain information (masked information). This includes payment information such as credit card number, expiration date, and CVV. This information is masked and not transmitted to Quantum Metric or Bass Pro/Cabela's.

10. During a period of time, search terms inputted by website visitors were also blocked, but were changed to be instead encrypted. In either instance, search terms have never been visible to Quantum Metric.

11. An individual with access to Quantum Metric's session replay system has access to session replays and analytics data that has been generated from the session data.

12. In the ordinary course of business, session replays are accessible to Bass Pro/Cabela's on Quantum Metric's system for a rolling 30 days. If a session is viewed during that 30-day period (a "session of interest"), it is preserved indefinitely.

13. I have been advised that in connection with this litigation Quantum Metric has halted any auto-deletion of replays.

14. As of October 31, 2023, there were over 353 million replays available within Quantum Metric's system.

15. In addition to the replays, session metadata exists for sessions back to 2019. This session metadata is a summary of certain fielded data.

16. Unless an individual authenticates themselves on the websites at the time of their visit, it is not possible for Bass Pro/Cabela's to identify a particular website visitor. If an individual authenticates on the website, Bass Pro/Cabela's can search for session data associated with that individual using the email address that was used at the time of the website visit.

17. Bass Pro/Cabela's cannot reliably search for a session in the first instance based on IP address because the third and fourth octets are encrypted.

18. For purposes of this litigation, Named Plaintiffs provided eleven email addresses and I used those email addresses to search for session data associated therewith.

19. This required me to manually create a search command for each email address.

20. In summary, I found session metadata for two Plaintiffs – Cornell and Moore. I found one replay for one Plaintiff - Plaintiff Moore. I did not find any sessions attributable to Plaintiffs Montecalvo, Durham, Hernandez, Calvert, Tucker, or Vonbergen.

21. The full results of my search are set forth below:

Plaintiff Durham	
██████████@gmail.com	No sessions 2019 to October 31, 2023
Plaintiff Moore	
██████████@gmail.com	70 sessions between 2019 to October 31, 2023 One replay – October 31, 2023
Plaintiff Hernandez	
██████████@gmail.com	No sessions 2019 to October 31, 2023
Plaintiff Montecalvo	
██████████@me.com	No sessions 2019 to October 31, 2023
Plaintiff Calvert	
██████████@yahoo.com	No sessions 2019 to October 31, 2023
Plaintiff Cornell	
██████████@gmail.com	2 sessions on July 1, 2021 No replays
Plaintiff Tucker	
██████████@sullair.com (1980 to May 2008)	Predates QM reporting capability
██████████@yahoo.com (not sure of start date, but stopped using the email address on or before 2008)	Predates QM reporting capability
██████████@fabickcal.com (May 2008 to present)	No sessions 2019 to October 31, 2023
██████████@gmail.com (approximately 2008 to present)	No sessions 2019 to October 31, 2023

Plaintiff Vonbergen	
██████████@icloud.com	No sessions 2019 to October 31, 2023
██████████@icloud.com	No sessions 2019 to October 31, 2023
██████████@gmail.com	No sessions 2019 to October 31, 2023

22. In order to provide the session metadata that I found, I manually exported that data on a per-email basis.

23. Attached to this Declaration and Bates Numbered BPS_0001235 is an Excel containing the session metadata associated with Plaintiff Heather Cornell.

24. Attached to this Declaration and Bates Numbered BPS_0001236 is an Excel containing the session metadata associated with Plaintiff Gregory Moore.

25. Bass Pro/Cabela's cannot export session replays; however, it is my understanding that session replays can be exported from Quantum Metric's system as .JSON files. The JSON files are text-based and are not a visual representation of the session.

26. I am not aware of, and have not been able to locate, other session data (metadata or session replays) associated with the Named Plaintiffs based on the email addresses that have been provided.

Pursuant to 28 U.S.C. § 1746, I declare under the penalty of perjury under the laws of the United States, that the foregoing is true and correct.

Dated this 10th day of November, 2023.

By:

DOUG CADMUS
